## The Lloyd Library...

...was developed by the Lloyd brothers as a research library for their pharmaceutical development and manufacturing company, Lloyd Brothers, Pharmacists Inc., one of the leading pharmaceutical companies of the late 19th and early 20th centuries. The current building is the third to bear the name Lloyd and it holds over 200,000 volumes on the subjects of pharmacy, botany, chemistry, horticulture and gardening, natural products, alternative medicines, natural history, and more. The library is open to the public and also serves a world-wide clientele via its website and through regular inter-library services.

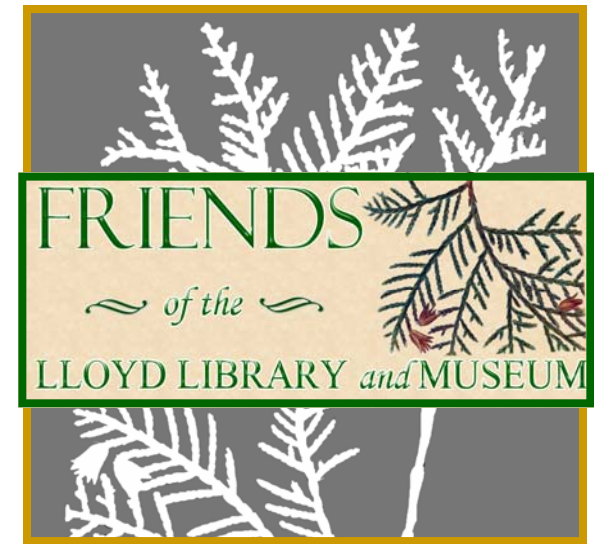

The stated mission of the library is:

*To collect and maintain a library on botanical, medical, pharmaceutical, and scientific books and periodicals and works of allied sciences that serve the scientific research community, as well as constituents of the general public, through library services and programming that bring science, art, and history to life.*

The library has something to offer everyone, whether you love to garden, love art, or are interested in alternative medical therapies or the latest pharmaceutical news, the Lloyd is here. Please consider joining, because...

**With Friends like you,  
great things are possible!**
