

BROWN PAMPHLET COLLECTION
Collection No. 102

Abstract

The collection consists of articles on botanical research reprinted from journals and bulletins. The primary subject materials included are natural science, wood anatomy, and Hawaiian botany.

Scope and Content

The collection consists of reprints of articles on botanical research gathered by Forest B. H. Brown. Included are materials on plant taxonomy and ecology, the flora of North America, the vegetation of Hawaii, and other areas of the United States, trees, forest and timber insects, and aspects of the study of wood anatomy and identification of woods.
